

MEDICAL VOICE CENTER

AS UNIQUE AS
YOUR VOICE

PROF. HESS AND PARTNER

WWW.MEVOC.DE

The **MEDICAL VOICE CENTER** is unique in Germany and specializes exclusively in the treatment of the voice and larynx.

As a multidisciplinary center, we treat all voice disorders with a team of experts in phoniatrics, ENT's, speech therapy, voice therapy, singing voice, voice feminization and laryngeal osteopathy.

Prof. Markus M. Hess, who performs about 1,000 interventional and diagnostic procedures per year, is one of the world's most experienced phonosurgeons.

The MEDICAL VOICE CENTER stands for

- Decades of experience and specialization in voice
- Interdisciplinary diagnosis and therapy
- State of the art surgical techniques and long time surgical experience
- Guaranteed pain free laryngoscopy
- Approx. 1,000 interventions per year
- Active research and highest scientific level

High-class medicine meets high therapeutic specialization, personal care and beautiful ambience.

The most common voice disorders of our patients:

- Hoarseness
- Recurrent nerve paresis
- Recurrent respiratory papilloma
- Vocal fold polyps/cysts/nodules
- Reinke's edema
- R-CPD treatment
- Voice feminization surgery
- Leukoplakia
- Early tumor detection

AMBULATORY DIAGNOSTIC PROCEDURES.

-

Due to the use of newest, tiny endoscopes and computer-controlled HD video technology, even microscopic changes in the vocal fold can be seen. The laryngoscopy and other examinations are pain free.

- Digital video-endoscopy with HD technique
- Digital video-stroboscopy
- Narrow band imaging (NBI)
- High-speed imaging
- Videokymography
- Electroglottography
- Voice range profile
- Spectral voice analysis
- Singing formant determination
- Voice lab according to UEP standards

OUR THERAPY IS INDIVIDUALIZED.

-

Conservative therapy

- Speech-language-voice therapy – SLP/SLT
- Professional voice coaching
- Trans*Voice-speech-therapy
- Post-operative voice coaching
- Rehabilitation of the singing voice
- Laryngeal osteopathy

WE ARE HERE FOR YOU.

-

With approx. 1,000 medical interventions per year, you will find in the MEDICAL VOICE CENTER the professional treatment you want for your sensitive vocal organ.

Univ. Prof. Markus M. Hess, MD, is ENT-specialist and phoniatician. At an early stage, he specialized in voice disorders, phonomicrosurgery, laser procedures and voice feminization surgery. In the area of voice-improving surgery, Prof. Hess is one of the most experienced voice surgeons.

Dr. Susanne Fleischer is ENT-specialist. She is the leading specialist in the field of video-endoscopy, stroboscopy and the differential diagnosis of voice disorders.
